

# FALK INVEN TIONS

SMART IDEAS  
FOR BETTER LIFE

## Inventions Ready For Takeoff

Falk Inventions is a Swedish Invention company. We develop creative ideas and are driven by a true desire to improve and simplify everyday living. We have a number of promising patents granted and pending and are always on the lookout for viable collaborations that reinforce our products prospects and render mutually strong business opportunities.

Some of our inventions need to be kept under wraps, others are ready for market. If you want to know more about Falk Inventions, have a closer look at our products or maybe get a preview of what we have in the pipeline, feel welcome to contact us.
